How to locate your Medicare contractor’s LCDs

1. Go to: https://www.cms.gov/medicare-coverage-database/
2. Once the Medicare Coverage Database (MCD) page opens, click on “local coverage documents” in the “quick search” section.
3. Select your area from the “select geographic area/region” section.
4. In the “select one or both” section, enter keywords (title only) and/or CPT®/HCPCS Code.
   - For this example, insert 97607 for disposable NPWT.
5. Click the “search by type” button.
6. Your search results will show if your Medicare Administrative Contactor (MAC) has written any articles or LCDs pertaining to 97607:
   - The MAC for Wisconsin does not have any pertinent articles.
   - The MAC does have a pertinent LCD, L34587: Wound Care.
7. To view the LCD, click on the LCD number.
Review the license page. If you agree, click the "accept" button at the bottom of the page.

The selected LCD will open. Print and review the LCD with your wound care team.

Scroll to the next to the last section at the bottom of the LCD to "associated documents"
- If there are attachments, click on the title and the document will open
- These additional guidelines are very important components of the LCD. Please note, you will also find older versions of the LCD, if they exist.
